The Butlers Story

Butlers Cafe and Coffee began in the minds of three brothers. Growing up in the Midwest these three learned the importance of being remarkable, that service and quality bred by hard work can create an extraordinary place in which community can grow. Butlers was born as that extraordinary place. Seeing service as a marriage of taste, atmosphere, and passion, the founding brothers built each of these attributes into the underpinnings of Butlers.

Here at Butlers our mission is to be Remarkable ... by offering food that makes people Happy through service that makes people Smile. We believe in the values & fellowship of growing towns, and serve to be responsible catalysts for growth of our communities, our people, and our business.

Our Coffee

Butlers' coffee starts with **100% Arabica beans**, the most excellent of coffees, is washed using traditional water separation, and is **100% sun dried** rather than machine dried to ensure the taste is preserved. Moreover, Butlers' coffee is grown with limited and controlled use of soil inputs, which insures the safety of the farmer and the soil as well as provide the very best quality coffee.

As Butlers Cafe & Coffee looks to be a responsible catalyst for growth in our own communities we must be responsible for our moral decisions as well. That is why Butlers' coffee is **100% certified fair trade** with farmers earning a fair wage and no child labor. In addition, children of workers are provided with childcare, schooling & medical facilities. All of these elements in concert ensure our guests the highest quality coffee from seed to cup.
